Sir:

**INTERVIEW SUMMARY**

Applicants thank the Examiner for his time during the two telephonic interviews held recently, and for providing the Interview Summary form PTOL-413 dated October 3, 2008. Applicants would like to clarify the Interview Summary dated October 3, 2008, to the extent discussed below.

During the first telephonic interview, Applicants' representatives, Aaron Raphael and Kimberly Smith, discussed with the Examiner the Office Communication dated August 27, 2008, which indicated that claims 110, 121, 140, and 155 should have been identified as claims readable on the elected species (i.e., isobornyl (meth)acrylate and isobutyl acrylate). While Applicants agreed with the Examiner that claim 155 should have been identified as a claim readable on the elected species, Applicants' representatives were initially uncertain whether claims 110, 121, and 140 also read on the elected species. At the end of the interview, as indicated in the Interview Summary,

Applicants' representatives stated that they would confirm with their client whether claims 110, 121, and 140 read on the elected species. Applicants' representative, Mr. Raphael, subsequently contacted the Examiner again to confirm that claims 110, 121, and 140 do read on the elected species (i.e., isobornyl (meth)acrylate and isobutyl acrylate), as initially indicated by the Examiner in the Office Communication dated August 27, 2008, and confirmed by Applicants in their Response to Office Communication dated October 2, 2008.
